

software struk sbu full version software struk sbu hot software struk sbu crack software struk sbu 2020Q: Import data based on partial string in another file I want to import a list of IP addresses from 1 file into the base IP address of a different file. For example, this is my first file: IP addresses: 10.5.6.7 ... And this is the second file where I want to import the list of IP addresses from the first file: 10.1.2.3 10.5.6.7 I would use awk to pull out the string "10.5.6.7" and use it to replace the base IP address of the second file, but all the available awk commands require that the whole IP address be present. This is my first file: input_file: 1 10.5.6.7 2 10.5.6.8 3 10.5.6.9 4 10.5.6.10 5 10.5.6.11 6 10.5.6.12 7 10.5.6.13 This is the second file: output_file: output_file:10.1.2.3 output_file:10.5.6.7 output_file:10.5.6.8 output_file:10.5.6.9 output_file:10.5.6.10 output_file:10.5.6.11 output_file:10.5.6.12 output_file:10.5.6.13 A: with awk: \$ awk '[a[\$2++]END]{for(i in a)[a[i]=1]print a[10.5.6.7]}' FS="\t" OFS=";" input_file 10.1.2.3 10.5.6.7 10.5.6.8 10.5.6.9 10.5.6.10 10.5.6.11 10.5.6.12 10.5.6.13 C
